TITLE	Economics: A Resource Guide.
INSTITUTION	Texas Education Agency, Austin. Div. of Curriculum Development.
PUB DATE	77
NOTE	24p.
EDRS PRICE	MF-$0.83 HC-$1.67 Plus Postage.
DESCRIPTORS	Agricultural Production; Audiovisual Aids; Business; Classroom Games; Consumer Education; *Economic Education; *Economics; Elementary Secondary Education; Government Publications; Instructional Materials; Money Management; Money Systems; Professional Associations; Reading Materials; *Resource Guides; Simulation; Textbooks

ABSTRACT

The guide, designed for teachers, supervisors, and resource center directors, identifies sources of classroom materials in economics for elementary and secondary grades. Section I lists 87 pamphlets and periodicals published by the 12 federal reserve districts in the United States. Topics include water use, small farm economics, business forecasts, and the relationship between foreign trade and American agriculture. The pamphlets are listed according to district and have one-sentence annotations. Section II lists 27 briefly annotated games, simulations, and multimedia materials. Grade level and class time are indicated for some. Topics include banking, consumer education, and inflation. Section III identifies 16 paperbound books in series for economic education, and provides information on grade level, class time, and publisher. Three professional organizations for economics are listed in Section IV, followed in section V by a listing of five economics textbooks adopted by Texas for the period 1973-79. Section VI lists names and addresses of 58 organizations which provide materials for economic education. The organizations include American Bankers Association, Board of Governors of the Federal Reserve System, Institute of Life Insurance, and the U.S. Department of Labor. (AV)

COMPLIANCE WITH TITLE VI, CIVIL RIGHTS ACT OF 1964 AND THE MODIFIED COURT ORDER, CIVIL ACTION 5281, FEDERAL DISTRICT COURT, EASTERN DISTRICT OF TEXAS, TYLER DIVISION

Reviews of local education agencies pertaining to compliance with Title VI Civil Rights Act of 1964 and with specific requirements of the Modified Court Order, Civil Action No. 5281, Federal District Court, Eastern District of Texas, Tyler Division are conducted periodically by staff representatives of the Texas Education Agency. These reviews cover at least the following policies and practices:

(1) acceptance policies on student transfers from other school districts;

(2) operation of school bus routes or runs on a non-segregated basis;

(3) non-discrimination in extracurricular activities and the use of school facilities;

(4) non-discriminatory practices in the hiring, assigning, promoting, paying, demoting, reassigning or dismissing of faculty and staff members who work with children;

(5) enrollment and assignment of students without discrimination on the ground of race, color or national origin;

(6) non-discriminatory practices relating to the use of a student's first language; and

(7) evidence of published procedures for hearing complaints and grievances.

In addition to conducting reviews, the Texas Education Agency staff representatives check complaints of discrimination made by a citizen or citizens residing in a school district where it is alleged discriminatory practices have or are occurring.

Where a violation of Title VI of the Civil Rights Act is found, the findings are reported to the Office for Civil Rights, Department of Health, Education and Welfare.

If there be a direct violation of the Court Order in Civil Action No. 5281 that cannot be cleared through negotiation, the sanctions required by the Court Order are applied.

PREFACE

This resource guide lists a variety of sources of classroom materials in economics. It is hoped that the guide will be helpful to teachers, supervisors, resource center directors, and any other educators interested in economic education.

The reader should be aware that this guide is not a complete listing of materials; nor is it an endorsement. For the latest and most complete information, educators should write the publishers of the materials. Teachers desiring to use the items should examine them closely to determine which will meet their needs.

Federal Reserve Pamphlets 1

Games, Simulations, and Multimedia Materials for Economic Education 10

Paperbound Books in Series for Economic Education 13

Professional Organizations for Economics 15

State-Adopted Textbooks in Economics 15

Organizations Sponsoring Materials for Economic Education 16

FEDERAL RESERVE PAMPHLETS

The Federal Reserve System is an excellent source of printed materials. These items are free and are generally available in bulk. The materials vary in usefulness; so teachers are urged to obtain copies for review before use in class.

Federal Reserve District #1
Public Information and Education
Federal Reserve Bank of Boston
30 Pearl Street
Boston, MA 02106

A History of Investment Banking in New England. A record of how New England investment banking houses have contributed significantly to the economic development of both the region and the country and their roles in the creation and expansion of manufacturing, transportation, communication, public utility, and other businesses.

New England Business Review. Published monthly. Each issue carries articles on phases of the New England economy as well as regular business statistics.

New England Economic Almanac. A compilation of facts and statistics describing the New England economy.

The Federal Funds Market. Describes the origin and development of the federal funds market, with emphasis on the factors responsible for its growth.

The Federal Reserve System, Trustee of the Nation's Money. A brief presentation of what the system and the reserve banks are and do.

Federal Peserve District #2
Publications Section
Federal Reserve Bank of New York
33 Liberty Street
New York, NY 10045

Keeping Our Money Healthy. Concerns the relationship between money and the demand and production of goods.

Money and Economic Balance. Supplement to *Keeping Our Money Healthy.* Focuses on how the Federal Reserve System uses its powers over bank credit and money creation to promote balance in the domestic economy.

Money: Master or Servant? Describes the structure of our economy, tells how money is created and how the Federal Reserve influences the cost, supply, and availability of credit.

Open Market Operations. Describes how open market operations in United States government securities are used to cope with monetary stresses and to promote a healthy economy.

Perspective. An annual report that gives the reader a brief review of the major domestic and international economic developments of the year just ended.

The Story of Checks. An illustrated description of the origin and development of checks and the growth and automation of check collection.

Federal Reserve District #3
Bank and Public Relations Department
Federal Reserve Bank of Philadelphia
925 Chestnut Street
Philadelphia, PA 19101

A Half-Century of Federal Reserve Policymaking, 1914-1964. The primary objective of this book is to trace the thinking of Federal Reserve officials as they developed policies to meet the major problems of an ever-changing environment. The study is based almost entirely on the minutes of various policy-making bodies.

Automation. Explores both sides of a controversial question: Tremendous potential for increased production or terrifying problems of adjustment?

Defending the Dollar. Analyzes the United States' balance-of-payments deficit; describes the operation of foreign exchange markets; and explains recent Treasury and Federal Reserve operations in foreign exchange.

50 Years of the Federal Reserve Act. Surveys the development of the Federal Reserve System, and the act which created it, during the first 50 years of its existence.

Gold! Explains in simplified style the manner in which gold is used as the core of the international payment mechanism and the relationship of the dollar to gold and foreign currencies.

How to Interpret Federal Reserve Reports. The purpose of this booklet is to indicate what the weekly bank statements can tell us about significant financial and economic developments.

Inflation and/or Unemployment. Traces the history of inflation and unemployment, emphasizing the difficulty of reducing one without increasing the other.

Monetary Policy: Is the Money Supply All That Matters? Considers the role of the Federal Reserve in policy formulation and implementation and discusses some shortcomings of the theory and problems concerned.

The Balance of Payments. Discusses in simplified terms the difficult concept of balance of payments.

The Federal Reserve on Record. A book of readings on current issues from statements made by Federal Reserve officials.

The Four Hats of the Federal Reserve. Examines the four main jobs of the Federal Reserve System: acts as a bank for banks; serves as the government's bank; supervises member banks to help them stay safe and sound; and manages the nation's money supply.

The Mystery of Economic Growth. Traces the growth record of the American economy, placing special emphasis upon the causes of economic growth and how it may be simulated.

The National Debt. Discusses the lender's side of the national debt. Tells who supplies the money and how.

The New Poverty. Discusses the causes, effects, and possible cures of postwar poverty.

The Price System. Describes the function of prices in the United States economy and how this function has changed over the years.

The Quest for Stability. Discusses the importance of controlling the supply of money and presents an analysis of the objective of Federal Reserve policy.

Federal Reserve District #4
Research Department
Federal Reserve Bank of Cleveland
P. O. Box 6387
Cleveland, OH 44101

Agricultural Bulletin. Monthly review of recent national and regional developments in agriculture.

Economic Commentary. Weekly article on economic developments.

Money Market Instruments. Deals with Federal funds, floating debt, commercial paper, bankers' acceptances, negotiable time certificates, repurchase agreements, call loans, and Federal agency securities.

Monthly Economic Review. Articles cover various aspects of regional, national, and international economic developments.

Federal Reserve District #5
Bank and Public Relations Department
Federal Reserve Bank of Richmond
100 North Ninth Street
Richmond, VA 23213

An Agricultural Man in Your Bank. A survey of farm loan departments of commercial banks. Deals specifically with the reasons for establishing such departments, their policies and operations, and the training of farm representatives.

Annual Report. A review of the bank's operations during the year along with a feature article discussing significant economic topics. Distributed annually in January.

Come With Me to the F. O. M. C.! A pamphlet describing in layman's terms the activities of the Federal Open Market Committee.

Federal Reserve Bank Directors. This booklet features the role of the head office and branch directors in the operation of the Federal Reserve Banks and their contributions to the functioning of the nation's economy.

Inside the Federal Reserve Bank of Richmond. A pocket-size booklet that takes you on a tour of the Federal Reserve Bank of Richmond. It includes a brief description of the service functions with liberal use of pictures.

Instruments of the Money Market. The booklet begins with a general review of the money market, followed by a fairly detailed description of 10 money market instruments. Emphasis throughout is on the interrelatedness of the various sectors composing the money market.

Keys for Business Forecasting. A booklet containing broad statistical measures which have gained widespread recognition as key business indicators. Relates in layman's terms the behavior of these indicators to changes in the level of structure.

Monthly Review. Contains articles related to the district and to financial and business developments and topics of national and international significance.

Nonbank Financial Institutions. Describes the nature of the more important types of nonbank financial institutions. Discusses origin, objectives, organizational structure, types of operatives, regulation and supervision, sources and uses of funds, profitability, and relative importance in the nation's financial structure.

Notes on Central Banks. Originally published as a series of articles in the Monthly Review of the Richmond bank, this booklet deals with the nature, characteristics, and functions of central banks with special reference to the Federal Reserve System.

Readings on Money. This booklet was prepared primarily to discuss briefly in the conventional terms of the layman the nature of money, its role in our modern economy, and the processes of its creation and circulation.

Summary of Business Forecasts. A reference file of representative business forecasts for the coming year. Distributed annually in February.

The Federal Reserve at Work. A booklet discussing in layman's terms the structure, objectives, and functions of the Federal Reserve System.

The Federal Reserve Today. A booklet explaining the structure of the system, the service functions, and monetary policy.

You and Your Money. A cartoon booklet dealing with the causes of inflation and deflation and some of the available remedies. Suitable for high schools.

Federal Reserve District #6
Research Department
Federal Reserve Bank of Atlanta
Federal Reserve Station
Atlanta, GA 30303

Banking Structure and Agricultural Finance in a Southeastern Region. An examination of the structural chatacteristics of rural banking and the ability of banks to provide adequate financing.

Counterfeit? Fold-out pamphlet. Suggests ways to spot a counterfeit bill and tells what to do if you get one. Also available in Spanish.

Essays on Southern Economic Growth. A discussion of economic changes during the Fifties that were significant for economic development in the South.

Federal Reserve Policy-Making and Its Problems. A review of the principal tools of monetary policy, the problems faced by those who formulate policy, and the actions taken by monetary authorities during the past several years.

Fundamental Facts About United States Money. Describes the physical chatacteristics of various types of U. S. currency and coin.

Monthly Review. Carries business and financial statistics for the Sixth District and articles dealing primarily with regional business conditions and various economic problems.

Population Change and Economic Change in the Southeast. A discussion of the relationship between population change and capital investment and banking in the Sixth District from 1950 to 1960.

Readings in Southern Finance. (Single copies to individuals; 25 copies to schools.)

Statistics on the Developing South. Statistical time series for tracing long-run economic changes in the Southeast and United States.

The Federal Reserve System. Fold-out pamphlet. Briefly describes the origin and organization of the Federal Reserve System.

Federal Reserve District #7
Federal Reserve Bank of Chicago
P. O. Box 834
Chicago, IL 60690

Business Conditions. A monthly publication devoted to a variety of economic topics.

Modern Money Mechanics--A Workbook on Deposits, Currency and Bank Reserves. Simple arithmetic examples and charts explain how the money supply expands and contracts.

Steel Begins Its Second Century. Summarizes the history, production methods, and current conditions of one of the nation's basic industries.

The Two Faces of Debt. Discusses savings and debt flows within the economy and shows the composition of debt in the private and public sectors.

Federal Reserve District #8
Federal Reserve Bank of St. Louis
P. O. Box 442
St. Louis, MO 63166

Federal Budget Trends (quarterly). Analytical comments on the Federal budget, including charts and tables.

Monetary Trends (monthly). Some analytical comments on national monetary situations.

Monthly Review. Comments on the current financial and business situation; contains articles on the national and international economy, particularly monetary aspects; analyzes various sectors of the economy of the Eighth District.

National Economic Trends (monthly). Analytical comments on the National business situation, including charts and tables.

U. S. Balance of Payment Trends (quarterly). Analytical comments on balance of payments; includes charts and tables.

U. S. Financial Data (weekly). Presents some analyses of weekly financial conditions; includes charts and tables.

Your Money Supply. Shows the role of the banking system and money in the circular flow of income.

Federal Reserve District #9
Publication Section
Duplicating Department
Federal Reserve Bank
Minneapolis, MN 55440

Reflections from History: First Half-Century of the Minneapolis Federal Reserve Bank. Outlines origin and evolution of the Federal Reserve System and its role in the nation's credit structure.

The Timber Economy of the Ninth District West. A study of the timber industry in the western states of the Ninth Federal Reserve District--its status, its prospects, and some policy matters as viewed through theory of resource allocation and conservation.

Your Money and the Federal Reserve System. Describes for the high school reader various services provided by Federal Reserve Banks, with special emphasis on how currency and coin are supplied. Briefly discusses system structure and how Federal Reserve actions influence the supply of money and bank reserves.

Federal Reserve District #10
Public Information Director
Federal Reserve Bank of Kansas City
925 Grande Avenue
Kansas City, MO 64106

Farm Debt as Related to Economic Class of Farm. This booklet presents information on the amount of debt and the sources of credit by farm class.

Foreign Trade and American Agriculture. This booklet reviews the progression of programs that were and are designed to build commercial markets abroad for United States farm products and that use food for peace. Included is a section devoted to the history of U. S. agricultural exports from colonization through World War II.

Monthly Memo. Deals primarily with district banking developments and includes a number of statistical summaries concerning member banks.

Monthly Review. Carries business and financial statistics for the Tenth Federal District and articles dealing primarily with regional business conditions and various economic problems.

The Wheat Adjustment Problem: Potential Economic Impacts. The purpose of this publication is to analyze some of the long-run wheat adjustment problems in order to clarify the major issues involved. Covers such topics as wheat production patterns, imbalances in wheat supplies, farm adjustment problems, and others.

Water Resources--Development and Uses. Provides information relative to water problems and suggests ways which may be useful for the purpose of devising means to cope with them.

Federal Reserve District #11
Research Department
Federal Reserve Bank of Dallas
Station K
Dallas, TX 75222

Annual Report. Consists of the bank's annual statement and the January *Business Review;* sent to the *Review* mailing list each year.

Business Review. Provides business and financial statistics for the Eleventh District and articles dealing primarily with regional business conditions and various economic problems.

Farm and Ranch Bulletin. A monthly bulletin related to the various economic facts of farming and ranching in the Eleventh District; statistical tables included.

Fiftieth Anniversary, 1914-1964. Highlights the activities of the bank and some of the significant economic trends in the Southwest during the 50-year period.

Regional Economic Facts. Contains statistical data on a wide variety of topics from population to banking and finance in Eleventh District states of Arizona, Louisiana, New Mexico, Oklahoma, and Texas.

Federal Reserve District #12
Administrative Service Department
Federal Reserve Bank of San Francisco
400 Sansome Street
San Francisco, CA 94120

Farm Lending in the West. Examines the changes which occurred in Western agriculture between 1956 and 1966, and the vast size and diversity of Western farming operations.

Four Periods of Tight Money. Examines and analyzes periods of monetary restraint since 1952.

Hammering on Guideposts. An examination of the construction industry's employment and wage trends in relation to wage-price guidelines as established by the Council of Economic Advisors.

Men, Money, and the West. A summary of economic and financial development in the West over the past half century.

New Luster for the White Metal. Describes functions of silver in the nation's financial history from 1792 to 1966. Analyzes the recent silver shortage.

GAMES, SIMULATIONS, AND MULTIMEDIA MATERIALS FOR ECONOMIC EDUCATION

The appropriateness and usefulness of instructional resources other than books should be considered when planning for economics instruction. The following materials are designed to involve students in doing more than reading when studying economic concepts.

All About Banking (Prentice-Hall, Inc., Southwest District Office, 4640 Harry Hines Blvd., Dallas, TX 75235). Multimedia program on the functions of money and banks, personal banking, banking careers, and use of credit.

An Economics Primer: $$$ to Donuts (Prentice-Hall Media, 150 White Plains Road, Tarrytown, NY 10591). A combination of games and sound color filmstrip on basic concepts in economics.

Beat the Market (Southwestern Publishing Company, 11310 Gemini Lane, Dallas, TX 75229) A series of five separate games each designed as an application of economic price theory. As many as 42 students may be involved. Games may be played individually, by teams, or both. Each game can be completed in a class period. Instructor's manual provided.

Budget (Social Studies School Services, 10,000 Culver Blvd., Culver City, CA 90230). Simulation kit for up to 35 students. Simulates federal-level representatives involved in the formation of a national budget.

Buy and Sell: A Consumer Economics Game (Social Studies School Services, 10,000 Culver Blvd., Box 802, Culver City, CA 90230). Involves students in the creation of a business community in which they play the role of industrial executives, loan officers, salespersons, and consumers. Grade level: 9-12; playing time: 3 class periods.

Caveat: Consumer Education in Action (J.B. Lippincott Company, 4640 Harry Hines Blvd., Dallas, TX 75235). A five-part multimedia kit for grades 9-12. Each part may stand alone. Includes a teacher's kit and consumable student materials.

Changing Times Mini-Units (Changing Times Education Service, 1729 H Street, N.W., Washington, DC 20006). Designed to stimulate problem solving and decision making. Each unit consists of reprint materials, teaching guide, and transparencies in one box.

Consumer (Academic Games Associates, Inc., 430 East 33rd Street, Baltimore, MD 21218). Students learn about budget allocation and about use of credit. 11-34 players. 1 1/2 - 2 1/2 hours playing time.

Consumer Education (Social Studies School Services, 10,000 Culver Blvd., Culver City, CA 90230). A series of nine paperbacks to provide basic information needed in the purchase of goods and services. Discount with five copies and over.

Consumer Education and the Market Place (Social Studies School Services, 10,000 Culver Blvd., Box 802, Culver City, CA 90230). Nine color sound filmstrips with correlated student paperbacks with basic information on the purchase of goods and services and in the choice of career.

Consumer Law Resource Kit (Social Studies School Service, 10,000 Culver Blvd., Culver City, CA 90230). A multimedia program designed to teach students their rights as consumers as well as their responsibilities under the law.

Economics and Consumer Education (Guidance Associates, 757 Third Avenue, New York, NY 10017). A series to develop consumer skills consisting of filmstrips and records or cassettes. Grades 7-12.

Economic Decision Games (Science Research Associates, 1504 Colony Creek Drive, Austin, TX 78758). Eight real-life situations teach application of social science principles as students observe, analyze, and solve problems in critical areas. Two to five class periods for each game. High school level.

Economics in Action (BFA Educational Media, 2211 Michigan Ave., Santa Monica, CA 90404). Series of six, color, super-8mm film loops for elementary pupils, K-6, on basic economic concepts.

Economic System (Academic Games Associates, Inc., 430 East 33rd Street, Baltimore, MD 21218). Designed to teach students about the basic interdependence of parts of the economy of production, consumption, and markets. 7-13 players, 2-4 hours playing time.

Enterprise (Interact, P.O. Box 262, Lakeside, CA 92040). Students are divided into groups of bankers, businessmen, brokers, consumers, welfare poor, politicians, and lobbyists. The groups interact in those economic activities capitalism requires in order to function. Thirty-five copies of a student guide and one teacher's guide. Three-week teaching unit.

F.L.I.P., Family Life Income Game (Instructional Simulations, Inc., 2147 University Avenue, St. Paul, MN 55114). A family money-management and budgeting simulation. 2-30 students.

Inflation (Social Studies School Services, 10,000 Culver Blvd., Box 802, Culver City, CA 90230). A simulation game allowing students to participate in economic and political decision making. Grade level: 10-12; Playing time: approximately 7 class periods.

Marketplace: Teaching Consumer Education (Social Studies School Services, 10,000 Culver Blvd., Culver City, CA 90230). A three-unit resource kit with materials for 30 students.

Money Management: Resource Kit on Teaching Consumer Education (Social Studies School Services, 10,000 Culver Blvd., Culver City, CA 90230). A program to aid in teaching the principles of consumer education and in motivating students toward better money management. Consists of five units and a teacher's guide.

Origins and Development of Money (Social Studies School Services, 10,000 Culver Blvd., Culver City, CA 90230). A classroom kit which examines the barter system, early forms of money, and the evolution of money into its contemporary format. Teacher's manual, 30 student programs, wall chart.

People, Places, Products (Addison-Wesley Publishing Co., 2725 Sand Hill Road, Menlo Park, CA 94025). Media kit for elementary children designed to introduce basic economic concepts and develop a concern for ecology.

Primary Economics (BFA Educational Media, 2211 Michigan Ave., Santa Monica, CA 90404). A series of programs on either records or cassettes with filmstrips to introduce basic concepts in economics. Designed for kindergarten, primary grades.

The American Way (National Schools Committee for Economic Education, Inc., P.O. Box 326, Old Greenwich, CT 06870). A kit of teacher aids designed for grades 4-9 on economic topics on food, clothing, and transportation.

The Economy Game (EMI, Box 4272-6, Madison, WI 53711). A game of finance that incorporates elements of education, supply, demand, productivity. Grade level: Junior High-College.

The Great Depression (Social Studies School Services, 10,000 Culver Blvd., Box 802, Culver City, CA 90230). Multimedia kit which presents an overview of the causes, problems, and effects of the Depression.

Understand How Your Economy Works (EMI, Box 4272, Madison, WI 53711). A gameboard design for teams of 4-6 students for bidding and auctioning goods.

PAPERBOUND BOOKS IN SERIES FOR ECONOMIC EDUCATION

Basic Economic Series (Channing L. Bete Company, Inc., 45 Federal Street, Greenfield, MA 03101). A set of economic study units based on concepts, outlines, and source materials of the Joint Council for Economic Education. Quantity discount prices available. Also available are 25 fact-booklets related to various aspects of economics.

C.A.S.E. Economic Literacy Series (Webster Division, McGraw-Hill Book Company, 8301 Ambassador Row, Dallas, TX 75247). Developed by the Council for the Advancement of Secondary Education. Each book, accompanied by a teacher's manual, deals with a major economic problem as an economist would.

Consumer and the American Economy, The (Laidlaw Brothers, 4640 Harry Hines Blvd., Dallas, TX 75235). A series of five books designed to involve students in the practical world of consumer economics.

Consumer Economics Mini-Units (Channing L. Bete Company, 45 Federal Street, Greenfield, MA 03101). A set of booklets dealing with specific aspects of consumerism such as credit cards, life insurance, and social security. Quantity prices available.

Consumer Education (Westinghouse Learning Press, 770 Lucerne Drive, Sunnyvale, CA 94086). A PLAN individualized course designed to develop consumer awareness and an understanding of the influence of the economy on everyday life. Grades 9-12, fifteen lessons, 3-5 hours for each lesson.

Consumer Education Learning Activity Packages (Social Studies School Services, 10,000 Culver Blvd., Box 802, Culver City, CA 90230). A series of fifteen self-contained, self-directed lessons on consumer education topics ranging from general economics information to personal financial decisions. Grade level: 9-12; Time: 3-5 hours for each LAP.

Economics: An Individualized Course (Westinghouse Learning Press, 770 Lucerne Drive, Sunnyvale, CA 94086). A PLAN individualized course designed to introduce the student to basic economic concepts and principles.

Economics in Society (Addison-Wesley Publishing Co., 2725 Sand Hill Road, Menlo Park, CA 94025). Series of modules to develop skills in economic reasoning. Built around a core book on basic economic concepts, skills, and institutions.

Introduction to Economics Series (John Wiley & Sons, Inc., 605 Third Ave., New York, NY 10016). Eight volumes to be used individually as supplements to a standard text or together as a basic text for an honors course. These books present the essentials of economic theory and apply it to important economic problems. The underlying premise is that the books introduce students to how an economist thinks about economic problems.

Modern Economic Issues Series (Prentice-Hall, Inc., 4640 Harry Hines Blvd., Dallas, TX 75235). This series examines pervasive issues in contemporary economic policy from economic, political, and social perspectives. Each one focuses on a specific problem, and makes clear the methods and conclusions of modern economic analysis.

Primer of Economics Series (Bureau of Business and Economic Research, The University of Iowa, Iowa City, IA 52240). A set of five booklets designed for high school level. Bulk prices available.

Road Maps of Industry (National Industrial Conference Board, 845 Third Ave., New York, NY 10022). This series consists of four-page, semi-monthly charts prepared by the Board employing economic data available through government sources and other accredited agencies including the Board's own research. Maps are sent regularly from September to May and may be obtained free only upon request. Classroom sets of current charts, if available, will be sent free upon request.

Studies in Economic Issues (Scott, Foresman and Company, 11310 Gemini Lane, Dallas, TX 75229). A set of paperbacks designed to start students in building economic understanding. Each deals with specific economic problems facing the United States.

Studies in Economics (D.C. Heath and Company, 8301 Ambassador Row, Dallas, TX 75247). Though designed for college level, this series can be used by the advanced high school student. Each of the volumes centers on a specific economic topic such as the federal deficit, inflation, antitrust policy, etc.

The Forum Series: The American Economy (Forum Press, 2213 First Capitol Drive, St. Charles, MO 63301). A series of original interpretive essays on economic topics done in historical contexts.

Understanding Economics Series (Chamber of Commerce of the United States, 1615 H Street, N.W., Washington, DC 20006). A set of 10 booklets, each dealing with one important area of the free enterprise economy and forming the basis for discussion in one class session. The booklets are designed to accompany the Chamber's *Understanding Economics* discussion course. Bulk prices available.
